Infotech Frontend Developer
Applicant Exercise

Estimated time to complete: 3-4 hours

Project:

Design a dashboard to help an executive understand how salespeople are performing at a glance. We have attached an HTML file as a starting point. You may modify the HTML markup and use CSS and Javascript as you see fit. However, the use of Javascript or CSS frameworks is not permitted.

We estimate it should take 3-4 hours to complete this challenge, but feel free to spend as much time on it as you think is appropriate. Please complete and return an updated HTML document by [insert date/time here]
